SEBASTOPOL ASSISTANT FIRE CHIEF MIKE REESER 1956-2021

Assistant Fire Chief Mike Reeser unexpectedly passed away at work on January 9. Mike joined the Sebastopol Fire Department on January 1, 1979, 42 years with the

department! Mike started as a volunteer firefighter, was promoted to Fire Captain in 1984, and then promoted to Assistant Fire Chief in 1988, under then Fire Chief Russ Shura. Mike actually began his volunteer fire experience back in 1969 as a radio dispatcher for the Twin Hills Fire Department (Gold Ridge FPD). He was a Fire Explorer for Twin Hills from 1972-1974. Mike and I went to school together at Analy High, with Mike graduating from Analy one year after me, in 1974. Mike was our backbone of our department, and truly our department's historian. He led many projects, including leading most of our Fire Engine purchases over the years. Mike was the business owner of the Santa Rosa Fire Equipment company for many years. Mike will be missed by all.

Mike is survived by his wife Jeanene, and his two daughters, Haley and Samantha, as well as his siblings.

Funeral arrangements and/or Celebration of Life is pending.

SONOMA COUNTY'S REGIONAL STAY-HOME ORDER EXTENDED

SoCo
Emergency

State public health officials have extended a Stay-Home Order for the 11-county Bay Area region, including Sonoma County, due to rising cases of COVID-19, increasing hospitalizations and, specifically, low ICU capacity rates for the larger Bay Area region. The restrictions will remain in place until the state's four-week projections of the Bay Area's total available ICU bed capacity is greater than or equal to 15 percent.

Under the local order, residents are directed to stay at home except for work, shopping or other essential activities, such as medical appointments, allowed

by the State's Regional Shelter in Place Order. All sectors other than retail and essential operations must be closed. Outdoor recreation is allowed.

LOCAL HAZARD MITIGATION PLAN PUBLIC SURVEY

LOCAL HAZARD

MITIGATION PLAN

The federal government requires states and local governments to have hazard mitigation plans approved by the Federal Emergency Management Agency (FEMA) that are consistent with the Disaster Mitigation Act of 2000 for a jurisdiction to qualify for Federal Hazard Mitigation Grant funds. Mitigation planning is the process of identifying hazards to which jurisdictions are at risk as well as the development of actions that will reduce or prevent damages from those hazards.

One of the key components of a hazard mitigation plan is public input during the planning process. The purpose of this survey is to collect information from the public to better understand the vulnerabilities within the City, as well as solicit input on needs to best mitigate, or reduce the impacts of hazards before they occur. Your comments will be considered by the City's planning committee as the LHMP is developed. It should not take more than 5-10 minutes to complete this survey.

[City of Sebastopol Hazard Mitigation Plan Public Input Survey](#)

Please complete by January 31, 2021. Thank you for your participation.

PARTICIPATE IN THE EVACUATION BEHAVIOR STUDY ONLINE SURVEY

EVACUATION BEHAVIOR STUDY

The University of Florida is working on an important study regarding modeling behavior in evacuations, using the Kincade Fire as their case. This research aims to better understand and model the wildfire evacuation behavior by conducting a study with people affected by the 2019 Kincade Fire in Sonoma County, CA.

Wildfires have become an escalating problem in California. In order to adapt to the changing threat of wildfires, it is important to understand the household evacuation process, including how people perceive wildfire threat and respond to it. To better understand the wildfire evacuation behavior during the Kincade Fire in Sonoma County, the research team will survey those affected using interpretable machine learning to explore how different factors influenced risk perception, evacuation decision making, and subsequent evacuation behavior during the fire.

Learn more about the Modeling of Evacuation Behavior in the 2019 Kincade Fire research study and participate in the online survey [here](#).

SHOULD YOU GET A FLU VACCINE?

As the flu season approaches, health experts are concerned that adding another respiratory illness to the healthcare system during the COVID-19 pandemic could overburden providers and facilities. Getting the flu vaccine can help keep you and your loved ones healthy, while helping conserve local healthcare resources.

The CDC recommends that all people 6 months and older get a flu vaccine every year, and we know it's especially important this year. Getting vaccinated now, before influenza is widespread in the community, can help ensure you are protected.

Though the flu vaccination is not 100% effective in stopping a person from getting the flu, a vaccine can make flu symptoms less severe. As we deal with this pandemic, having milder symptoms will help reduce hospitalization rates. Additionally, if fewer people have flu-like symptoms there will be more testing capacity for those who experience fevers, chills, and respiratory issues associated with both conditions. Finally, because it is possible for people to have COVID-19 and the flu simultaneously, patients can save themselves the discomfort and possible serious consequences of having both viruses in their systems at the same time.

WEAR A MASK.

Slow the spread.

covid19.ca.gov

Coronavirus spreads when an infected person speaks, sneezes, or coughs within 6 feet of others. You may have the virus and spread it even if you feel well.

To prevent infection, you must cover your nose and mouth when outside your home. So wearing a mask is now required statewide. Wearing a mask or cloth face covering can slow the spread of COVID-19 by limiting the release of virus into the air. It also reinforces physical distancing, and shows you care about the health of others.

Don't wear your mask under your nose or just on your chin. A mask is only effective if it covers both ways you breathe.

Who needs a mask?

- Anyone going outside their home
- Workers in customer-facing industries
- Workers in offices, factories, or any group setting
- Doctors, nurses, and other health care professionals
- Other workers, as dictated by [industry guidance](#)

Who shouldn't wear a mask?

- Children under 2 years old
- Anyone with respiratory issues where it would impede their breathing
- Anyone unable to remove the mask without help
- Anyone with a medical condition, mental health condition, or disability that does not allow them to wear a mask

See a [complete list](#) of who should not wear a mask.

When should you wear a mask?

You should wear a mask or face covering whenever you'll be around someone you don't live with, including:

- In any indoor public space
- When waiting in line
- When getting health care
- On public transportation or when ride-sharing
- At work, when near others or moving through common areas
- Outdoors, if you can't stay 6 feet away from others

When can you take off your mask?

There are times when it's okay to take your mask off when you're away from home, such as:

- When eating or drinking
- If a hearing-impaired person needs to read your lips
- If wearing a face covering imposes a risk to you at work – for example, if it could get caught in machinery
- When you're not sharing a common area, room or enclosed space with others
- When you are getting a service to the nose or face
- When outdoors in public and can stay six feet from others

You should replace the mask as soon as you can after these activities to reduce the risk of infection.

For more information visit <https://covid19.ca.gov/masks-and-ppe/>

FIRE SAFETY & PREPAREDNESS

HAVE YOUR GO BAGS READY!

**Are you prepared to evacuate if necessary?
Are your go bags ready?**

Even though Sebastopol hasn't been under any evacuation orders or warnings during the recent fire incident, all citizens should be prepared to evacuate in the event one becomes necessary.

Everyone in your family should have their own Go Bag that contains a minimum of 72 hours worth of essential supplies. Personalize kits and keep them where they can easily be reached—at home, in the car, at work or school.

This is particularly important during fire season when a quick getaway may be needed. A backpack or other small bag is best for these kits so that they can be easily carried in an evacuation. During the COVID-19 pandemic additional considerations for your Go Bag include cloth face coverings, hand sanitizer, anti-bacterial wipes, and a thermometer.

SIGN UP FOR ALERTS

Make sure that you have signed up for:

Emergency Alert System (EAS) - No Registration Required

National public warning system that will interrupt local broadcast tv and radio programming to provide an alert in the event of a large-scale emergency.

Wireless Emergency Alerts (WEA) - No Registration Required

WEAs have three alert categories– Imminent Threat, AMBER, Presidential. You must keep the factory settings on to your WEA- capable phone to receive a WEA.

SoCoAlert - Registration Required

Emergency notification service providing Sonoma County first responders the ability to alert residents by landline or mobile phone, text message and email about imminent threats to life and property in specific impacted areas. Register all addresses that you'd like to receive alerts for (work, child's school, etc.). You don't have to be in the location of the emergency to receive alert.

Community messages are sent to email, and for critical emergencies, Alert messages are sent via text message and email (notifications are NOT delivered by phone call). Customize your settings at nixle.com to control which types of notifications you receive. Must register at nixle.com or text your zip code to 888-777

Local Radio and Television

Local news broadcasters to provide updates during an emergency. Tune radio to 1350 AM, 103.5 FM, 100.1 FM, 89.1 FM (bilingual), 98.7 FM (Spanish); watch preferred local TV news channel.

Hi/Lo Sirens

Sebastopol police cars and fire department vehicles are outfitted with new Hi/Lo sirens, a different sound than traditional sirens. This European-style, 2-tone siren will only be used in an emergency to alert residents within specific areas of the need to evacuate.

WILDFIRE IS COMING. ARE YOU READY?

As we have all seen with recent events, fire season is upon us. While Sebastopol did not come under an evacuation warning or order, we must continue to prepare.

All citizens are urged to step up your emergency planning for wildfires, including maintaining defensible space around the home, having an emergency plan in place, preparing a "go-bag" (including masks, gloves, and sanitizer), evacuating if ordered, and knowing several routes out of town. SERVICE REMINDERS: TAKE THE LEAVES TO THE CART, NOT TO THE CURB

SERVICE REMINDERS RECORDATORIOS DE SERVICIO

Do not pile leaves from your property on the street. Use your compost cart. Look for your street sweeping schedule at Recology.com/Sebastopol. Avoid street parking on sweep day. Make sure trees and shrubs don't grow into the roadway.

No apile hojas de su propiedad en la calle. Utilice su carrito de abono. Busque su horario de barrido de calles en Recology.com/Sebastopol. Evite el estacionamiento en la calle el día de barrido. Asegúrese de que no crezcan árboles y arbustos en la calzada.

WATER CONSERVATION

Please continue to practice water conservation as much as possible. California is still technically in a drought, with Sonoma County showing "Moderate Drought" conditions. Click [here](#) for more information.

DON'T FLUSH WIPES!

Flushing wipes, paper towels and similar products down toilets will

clog sewers and cause backups and overflows at wastewater treatment facilities, creating an additional public health risk in the midst of the coronavirus pandemic. Please do not flush disinfectant wipes or paper towels down the toilet.
