CITY OF SEBASTOPOL CITY COUNCIL AGEND ITEM

Meeting Date: To: From: Subject: Recommendation : Funding: July 16, 2019 Honorable Mayor and City Councilmembers Agenda Review Committee Goals and Priorities That the City Council Discuss Goals and Priorities FY 19-20 and 20-21 Currently Budgeted: ______Yes _____No ___XX ____N/A Net General Fund Cost: n/a Account:

INTRODUCTION: This item is to request that the City Council continue discussion of the City's Goals and Priorities and continue to engage in an interactive process with the community to establish Goals and Priorities for the next two fiscal years.

BACKGROUND:

Through a collaborative process with the City Council, City Staff, and members of the public, the goals and priorities sessions identify issues and concerns that are thought to be of the most importance for the City Council and City staff to focus their energies on during upcoming years. The City Council establishes goals and priorities as areas of focus/action.

DISCUSSION:

Goals and priorities provide a clear communication tool as to which significant priorities/projects/policy matters the City Council wants to accomplish during the fiscal year. Establishing goals and priorities for the City helps to develop the Council's vision and goals for the City and creates objectives that will enable the City to move forward as well as providing an important tool in review of City budgets. However, it is important to remember that it is common for items to be recommended by the public, the City Council or staff during the fiscal year that could impact the City's budget or Council Goals. These new projects or priorities should take into account certain variables, including staff capacity that may hinder progress or project completion. Many current goals have an ongoing nature to them is important to consider as the City Council looks at staff capacity and prioritization.

The City Council conducted a City Council Goals and Priorities workshop on January 31, 2019. The City Council and community provided topics for consideration as well as discussed current goals. City staff took the comments/suggestions from this meeting and created a spreadsheet (Exhibit A).

Due to the length of the meeting and multitude of topics presented, the City Council created a City Council Sub-Committee (Councilmember Carnacchi and Councilmember Glass) to review the current goals and priorities; review the topics proposed, and provide suggestions for tonight's meeting. As part of their review, the Council sub-committee directed staff to review the current goals and provide recommendations for retention, removal or if items are now considered routine. From staff's review, the sub-committee directed staff to combine the remaining goals with the proposed goals (Exhibit B). Exhibit B should be discussed by the Council tonight whether to keep, amend, or remove the current/proposed goals. The current goals are listed in black on this exhibit and the proposed goals from the January meeting are listed in red.

The Council should discuss potential goals and specific action strategies and objectives to implement each goal or provide recommendations for new goals.

Page 1 of 2 Agenda Item Number 10 (7-16-2019 CC Meeting) - Page 1 of 28 <u>RECOMMENDATION:</u> That the City Council continue discussion of the City's Goals and Priorities and continue to engage in an interactive process with the community to establish Goals and Priorities for the next two fiscal years.

(7-16-2019 CC Meeting) - Page 3 of 28

Emails received from members of the community

1. Tobacco retail license

2. Speeding on City streets

3. Pedestrian safety

4. Pedestrian education

5. Morris Street and RV parking - plan for this area

6. Returning Main Street to two-way traffic

7. Bike/pedestrian corridor on Bodega Avenue needs to be completed (safety issue)

8. Traffic - worse each year - status of a bypass

9. Road surfacing on Bodega Avenue

10. Quality of life should be a major consideration

11. Open interactive discussion with the City Council on a regularly scheduled basis to discuss ideas, concerns and issues as they relate to Sebastopol Businesses, community, city planning and the upcoming quarter

a. Quarterly meeting hosted by the City Council for business owners only (formal)

b. Quarterly meeting hosted by the City Council for business owners only (formal)

c. Separate meetings scheduled and held in a neutral space (informal)

12. Ives Pool/outdoor showers

13. City's enrollment at SCP - Evergreen Program

14. Ban on fossil fuel powered blowers (similar to the ban in the city of Sonoma) within the City of Sebastopol by the end of this year. Empower a subcommittee to generate support through educations outreach clarifying the benefits to our community

a. Justification: Air and sound pollution from fossil fuel powered blowersb. Availability of electric blowers for replacement

c. Encourage a site-specific approach to hardscape surface maintenance: evaluate site design such as type of plants and groundcover depositing debris on hardscape and modify to reduce debris; evaluate amount of debris allowed before hardscape is considered unsafe; consider the appropriate technology to achieve safe hardscape i.e. sweepers powered by humans/machines or electric blowers, have community members adopt hardscape areas

d. Allocate funds: to provide city staff with sweeping equipment and electric blowers and retire their fossil fuel blowers; hold community workshops on alternatives to fossil fuel blowers; offer rebates on rakes, brooms, electric blowers

e. Build community activism: ground entry in Apple Blossom Parade demonstrating alternatives to fossil fuel blowers; partner with organizations such as Daily Acts to help.

15. Bocce Courts - enough to have Leagues

16. Dog Park - large and fenced

17. Hiring of an Economic Vitality Employee to be the Sebastopol liaison between business owners and City needs

a. This person could:

i. Help to connect potential new buisnesses to available spaces in townii. Help new business get any grants, certifications, or legals taken care of to expedite the process and be the informational guide to local resources

iii. Deliver city information to business owners

iv. Ensure all construction etc. is done in a manner that doesn't negatively affect the store's open hours, or high-volume times

v. Promotes the local economy

vi. Works in conjunction with the downtown, chamber, city paper, and other advertising resources to cultivate a sense of excitement around town

vii. Can be the go-to person if anybody has a question for the city regarding business needs

18. Fireworks

19. Barrier in the turn lane near Parkside School adjacent to Washington Street. It's a big square of stones that can't easily be seen at night. It blocks the driveway across the street just near it, so that you can't turn into that driveway from a turn lane any longer, and you have to turn from the traffic lane. Cones should be removed.

20. Meanwhile, while they are building these stupidly dangerous barriers in turn lanes, the street nearby (Bodega Ave.) remains broken up a teeth-rattling. It's damaging cars every day, and yet there seems to be plenty of money for dangerous crosswalk barriers

21. Blue Tanks at City Hall - hard to look at - destroys the nice look of City Hall 22. Sonoma County is a top destination worldwide for road-cycling and Sebastopol is probably best location of Sonoma County for those that enjoy the sport. I have been renting road bikes to customers for about seven years and have seen customers from all over the world. They love it here. Unfortunately, they are often less than thrilled about the available lodgings. Sebastopol needs more hospitality development and I look forward to seeing a hotel on the plaza here in Sebastopol.

23. Undo the damage/confusion of the one lane road from Palm Drive Hospital to Sebastopol Road and the ensuing back-up when trying to turn left onto Petlauma Ave from Fannen when cars back up to South Main St. waiting to turn. Also force the corner property owner to take down the bushes that block the view of the one incoming lane of cars coming down Petaluma Avenue towards town. Admit this.

24. One-lane conversion was a mistake. I have never!!!! seen anyone on a bicycle ride down the middle of road on the bike lane. They always ride off to the right. They are not suicidal enough to ride in the middle of the street.

25. Regarding the new directional-directional signs. Add the street striping 26. Arrows/lanes/symbols/directions/crossings/and doo-dab triangles to the confusing mix. Now there are street signs to direct people to street signs... Now needing plaquest and more directional arrows and signs! When is enough enough? A sandwich board directing people to City Hall at the Main St./Bodega intersection???? and why not signs all over town directing people to the city restrooms. Where are they?

Agenda Item Number 10 (7-16-2019 CC Meeting) - Page 6 of 28

27. No one can do anything about bikes and skateboards on city sidewalks. Certainly, the SIGNS painted on the sidewalks hasn't stopped them.

28. That a financial feasability study be implemented in order to expand the square footage of our library, which has the smallest compared to all of our sister libraries, per patron usage. Additionally, and similar to our sister San Francisco Library, there is a need for a public health social worker to be assigned to our library for a few hours per week in order to provide referrals and assessments. Our library, like others nationwide, has become a de facto social service agency in its efforts to meet the diverse needs of our lower socio-economic patrons. 29. Address the traffic problem where 12 meets 116.

30. I believe the current solution is wrong for the condition. A solution that eliminates the lights (except to help pedestrians) needs to be found. The lights are creating the congestion. We want people to experience our city, but not get frustrated as they transition it.

31. Too many empty storefronts - the Formula Business regulations need some prescriptive out - maybe time vacant...

32. I believe our Inclusionary Housing zoning needs to identify other alternatives explicitly that satisfy what we want to accomplish. I share the goals that others have stated (quality affordable housing and integrated neighborhoods being two of them). However, I believe we should compromise on some in order to achieve the greater goal of insuring we have quality affordable housing for everyone within the city limits.

33. Lack of affordable housing resulting in a shocking exodus of younger people.34. Lack of younger people resulting in declining attendance/qualtiy schools.35. Lack of people and foot traffic resulting in depressing number of empty or underutilized storefronts.

36. Lack of diverse retail options for local shoppers.

37. Drivers are distracted and speeding - the crosswalks do not stop these drivers.

38. On Litchfield and Hayden street we are constantly grabbing hold of our children out of fear that a speeder will lose control of their car going down the hills. We have had to run into our neighbors' lawns off the sidewalk. Walking to and from school (Sunridge) can be pretty intense. Everyone is racing to work and school. During rush hour people use Litchfield as a cut through to bypass traffic by Fircrest market.

39. Would speed bumps solve this problem on Hayden and Litchfield? They fly down the roads? Speed bumps could stop a tragedy.

40. Also, we were involved in accident while crossing Main Street from Litchfield to Petaluma Ave. We were going straight and the motorist on Petaluma Ave made a left turn. We had the right away. Before this accident I have had 4 other times where it was close calls. There needs to be sign that says "yield to oncoming car"?

41. It's also become impossible to turn onto Petaluma Ave after the bike lane was installed.

42. I worry that we will be experiencing more and more traffic as our town becomes more of a vacation destination.

43. Please help make our town pedestrian safe not just bike safe. Families should be able to go out for a walk safely.

44. State of the City's downtown. With all the vacancies, it's pretty clear it's an economically depressed state. It's certainly not helping the tax base, and relying solely on the incoming hotel to save the tax base and the downtown is a tall order. The downtown is not attracting a variety of users, or good uses may be getting turned away. Small businesses tend to struggle with finances during slow seasons for shopping, and turning away all corporate uses could be creating problems. Perhaps the City should hire an economic consulting firm to obtain suggestions on reviving the downtown. When visitors come and are willing to spend dollars, they need more reasons to spend a lot of time on Main Street. The goal should be having both Main Street and the Barlow be successful.

45. Take the action necessary to have the City of Sebastopol "opt up" to the Evergreen Program with Sonoma Clean Power (100% renewable energy). The City of Sonoma has already done this, and I would love to see our city follow suit and thereby make a significant reduction to the greenhouse gases emitted by electricity production. As residential customers, my husband and I opted into this program and are very happy to be supporting renewable energy. In addition to opting up to Evergreen, request that the Sebastopol City Council formally requests of Sonoma Clean Power that all new future additional power procured through SCP via the Evergreen program meet new demand from additive projects (e.g. new solar installations), rather than a reallocation of existing hydro and geothermal resources. This will stimulate the development of new renewable energy prouction projects, which, in addition to benefiting the environment, will stimulate local job growth.

46. Vision: City of Sebastopol is a recognized and respected leader in reducing greenhouse gas emissions. Goals: Increased use of renewable energy, including a City-owned and operated micro-grid. Zero-waste in all City functions, meetings, events and projects.
